Executive Summary

Introduction

Attached is the FY 2023-2024 Adopted Budget. This budget includes an adopted property tax rate of \$0.681745, which is the De Minimis rate. The No New Revenue tax rate is \$0.321151. The City adopted this tax rate to ensure all expenses can be paid for and there are funds remaining for capital projects such as street repair/maintenance, vehicle replacements, and increased personnel costs.

This document explains funds and provides an estimated fund balance for all funds. It provides a summary of the revenue and expenditures for all funds as well, which are detailed in the actual budget document. Also included is a 2-year history of staffing positions with the budgeted positions for FY 2023-2024.

Funds

The Generally Accepted Accounting Principles (GAAP) set the guidelines for recording, reconciling, and reporting all transactions in the accounting system. These principles have been accepted by the Governmental Accounting Standards Board (GASB) for governments. GAAP ensures a consistent way for governments to report transactions and enable the public to interpret financial statements more easily. The difference in how businesses and governments report transactions is fund accounting.

Fund accounting is important because “the use of public resources typically is constrained by legal restrictions and similar limitations” (Gauthier, 2009). The use of separate funds ensures compliance with those constraints. Accountants use funds to group resources for specific purposes. For example, the general fund is used to collect revenue from taxes (sales and property), grants, and similar resources, to pay for general operations.

There are three categories of funds classified into different fund types:

- Governmental Funds
 - General Fund
 - Special Revenue Fund
 - Debt Service Fund
 - Capital Project Fund
 - Permanent Funds
- Proprietary Funds
 - Enterprise Funds
 - Internal Service Funds
- Fiduciary Funds
 - Private Purpose Trust Funds
 - Pension Funds
 - Investment Trust Funds
 - Agency Funds

The table below shows the City of Blue Mound funds with fund numbers.

City of Blue Mound Funds	
General Fund (general municipal operations)	100
Crime Control Prevention	200

Special Revenue Fund (Court Security/Technology Fund)	300
State & Local Fiscal Recovery Fund	400
Debt Service Fund (debt payment for bonds)	600
Enterprise Fund (Water/Sewer)	900
Drainage Fund	910

These funds have a *balance*, called fund balance. This is the difference between assets and liabilities in the fund. This is generally a business’s net worth. Governments report only a subset of assets and liabilities, and the difference represents liquidity rather than net worth, resulting in the term fund balance. “Fund balance is similar to the working capital of a private-sector business” (Gauthier, 2009). Fund balance rolls over year over year and can fluctuate up or down.

Below are the estimated balances of the City’s funds. These are estimates as the bank reconciliations and audit for FY 2022 are not completed. These balances also account for using the 200 and 300 funds to pay for authorized expenses that are currently budgeted in the General Fund, which will be discussed at the budget workshop. The items noted in red are to indicate these estimates.

Draft Budget Summary

The budgeted revenue for the General Fund is \$1,663,020. This is a preliminary number only in that property valuations and calculated tax rates have not been received from the appraisal district and tax assessor. The other revenue presented in the budget is based on historical receipts and anticipating lower receipts for sales tax for the coming year. Sales tax receipts for the past 10 months have been lower than the previous year, and on some occasions the lowest receipts in several years. The goal in budgeting is to underestimate revenue and overestimate expenses. Staff recommends regular review of the budget throughout the year.

Expenses for the General Fund are budgeted at \$2,361,334. This is a lean budget, ensuring basic services are provided and includes street repairs nearing \$100,000 and a sewer line replacement under the police department building at \$30,000. This budget does not include raises for staff.

The budget has a surplus of \$325,627.

The tables below summarize the revenue and expenses by fund.

	Revenue and Expenses	Revenue	Expenses	Surplus/(Deficit)

Budget Process

The budget is developed using zero-based budgeting. Each department director determines departmental needs and enters them in the software. Budgets are then reviewed by the City Administrator with the department directors. The City Administrator reviews the budget with the Mayor before submitting it to the City Council. Budget workshops are held at least once before the Council votes to adopt the budget. Budget amendments are made only as necessary and upon arrival by the Council via ordinance.

FY 2023-2024 budget process involved community via public hearings. FY 2024-2025 budget process will include data from community survey done in summer of 2023.

Ad Valorem Taxes

Ad Valorem taxes, or taxes based on property values, are based on the certified property values provided by the Tarrant County Appraisal District. The Tax Assessor for Tarrant County calculates the De Minimis (applicable to cities with a population less than 30,000), No New Revenue, and Voter Approval rates.

- De Minimis Rate: Rate that is necessary for cities to raise \$500,000 with current year values and pay for debt service.
- No New Revenue Rate: The rate that provides the same amount of revenue on the same properties from the certified roll from the previous year, less any new property annexed or new improvements.
- Voter Approval Rate: Rate that if adopted by the taxing entity, automatically triggers an election on the rate.

The total tax rate comprised of two parts: the maintenance and operations rate (M&O) and the debt rate (Interest and Sinking).

For the City, the 2023 rates are:

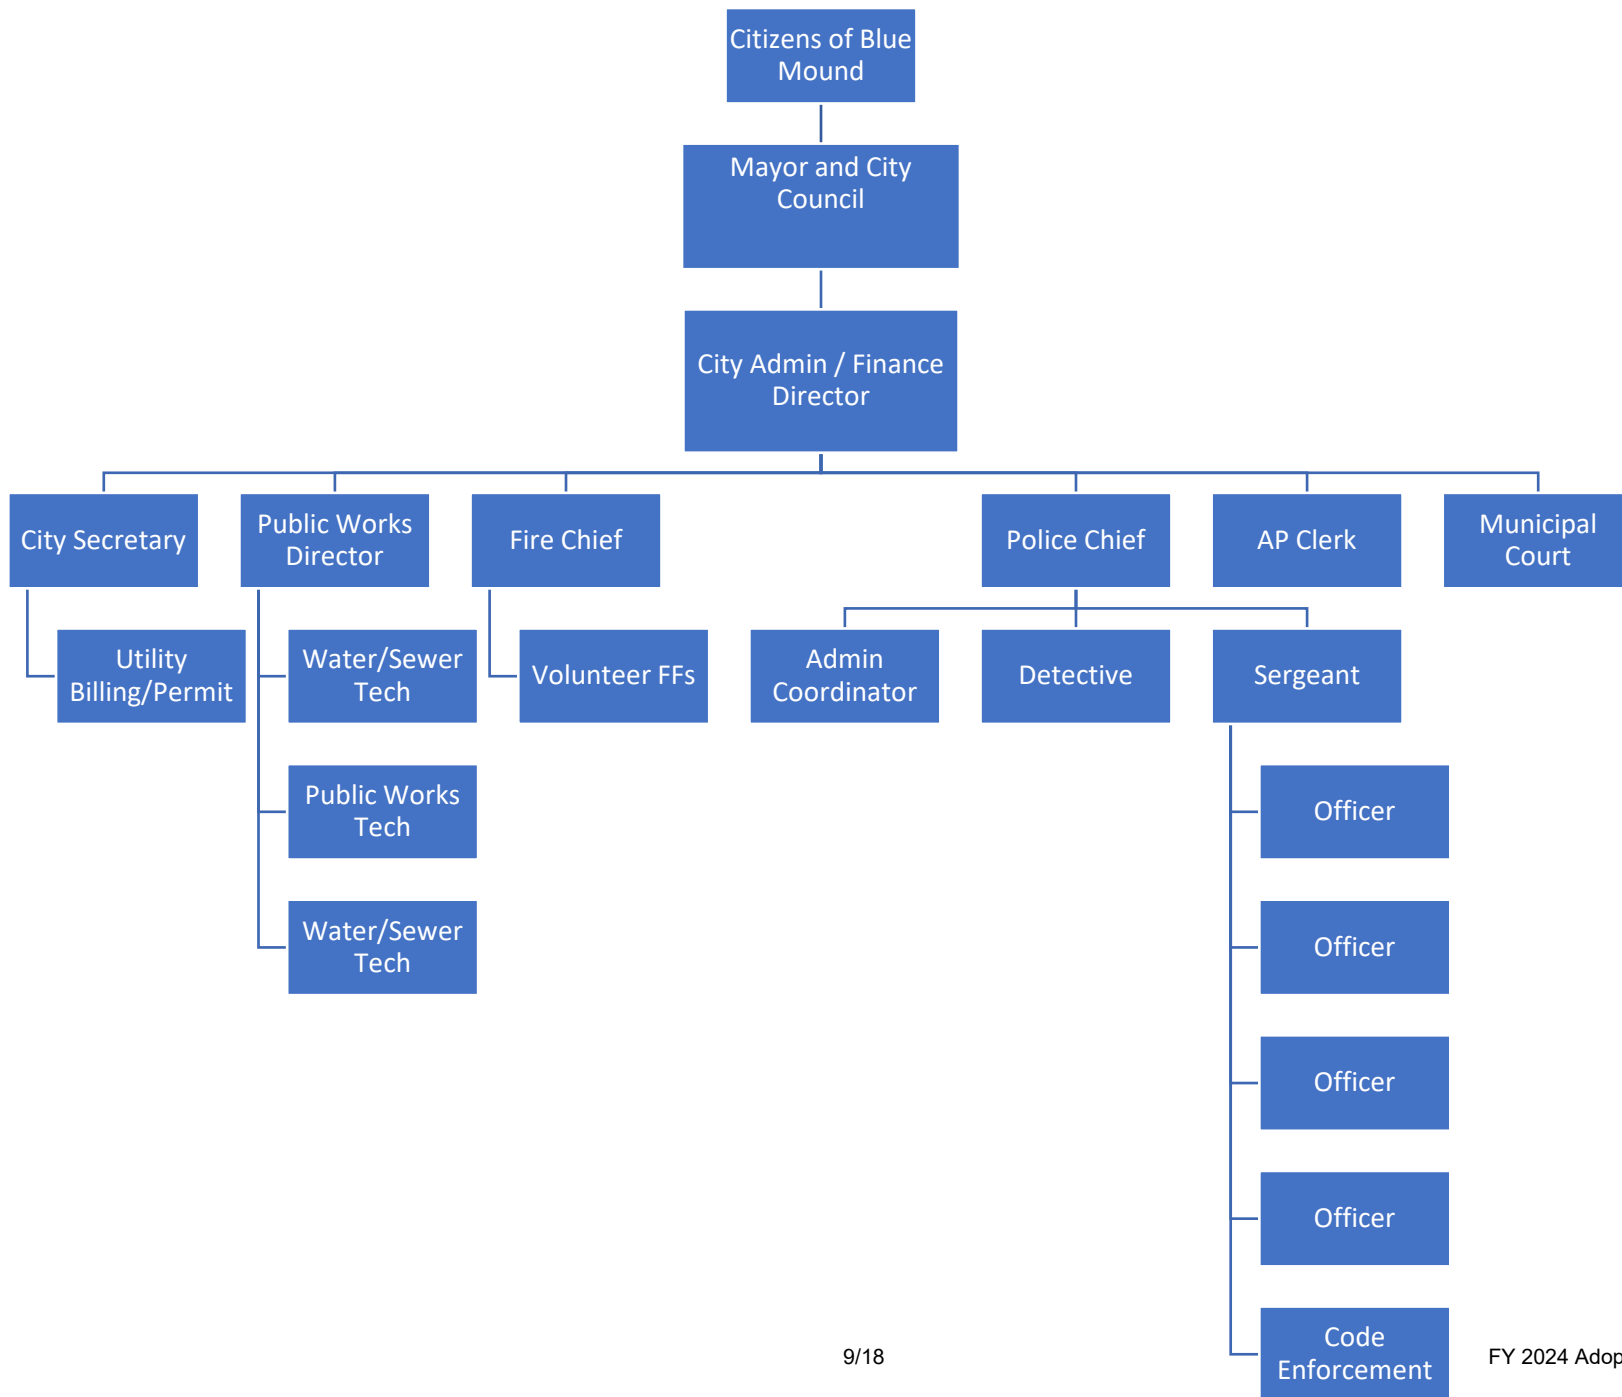

- Total Tax Rate: \$.681745 per \$100 of valuation
 - Maintenance & Operations (M&O) rate: \$.623530 per \$100 of valuation
 - Debt Service (Interest & Sinking) Rate: \$.056470 per \$100 of valuation.

These rates change each year depending on the certified values and the rate the Council adopts.

Summary

To summarize, the draft budget only contains increases necessary for basic operations and to maintain assets. There are no raises for staff, no capital purchased or projects aside from minor street repairs and a sewer line repair under the police building. With the adopted tax rate, this budget has a surplus of \$325,000.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
1.	2022 total taxable value. Enter the amount of 2022 taxable value on the 2022 tax roll today. Include any adjustments since last year's certification; exclude Tax Code Section 25.25(d) one-fourth and one-third over-appraisal corrections from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2) and the captured value for tax increment financing (adjustment is made by deducting TIF taxes, as reflected in Line 17). ¹	\$ 240,210,913

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- Debt Rate:** The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

SECTION 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the difference between the adopted tax rate and voter-approval tax rate adjusted to remove the unused increment rate for the prior three years.³⁹ In a year where a taxing unit adopts a rate by applying any portion of the unused increment rate, the portion of the unused increment rate must be backed out of the calculation for that year.

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year before 2020;⁴⁰
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a);⁴¹ or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval.⁴²

Individual components can be negative, but the overall rate would be the greater of zero or the calculated rate.

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit.⁴³

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.⁴⁴ This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit.⁴⁵

SECTION 7: Voter Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁴⁶

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁴⁷

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago. This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).
