Instructions for Submitting Environmental Samples for Biological Agent Testing

Environmental Samples:

- 1) Will be accepted by Tarrant County Public Health, North Texas Regional Laboratory only after HazMat and law enforcement have performed their assessment to rule out radiological, explosives and chemical agents.
- 2) Samples deemed as a LOW threat will only be tested for specific suspected agents indicated. HIGH threat levels samples will be tested for ALL specific agents listed in form.
- 3) Only suspected samples such as swabs, powder, contaminated paper, letters or liquid should be submitted for testing. Samples should be double-bagged and put in a container no larger than necessary and should not exceed 15" X 15" x 15".
- 4) Package exterior must be decontaminated before delivery to laboratory.
- 5) Environmental Sample submission form must be completed and securely attached to sample or given directly to microbiologist performing testing.
- 6) Extraneous materials such as gloves, towels, and clothing **MUST NOT** be included with the samples. Extraneous materials should be placed in a biohazard bag and disposed of locally according to state and federal regulations.
- 7) Results of laboratory testing will only be released to the entity which submitted the sample.

Please contact The North Texas Regional Laboratory, Bioterrorism Response and Emerging Agents Section for additional information regarding environmental sample submission.
