Below are two Payment Options that we offer our customers, and an explanation on Deferrals. If under the "Status" column on our statement, you find an "H", a "Q", or a "D"; this means that the account has a Payment Option or an exemption attached. The taxes on these accounts are not delinquent.

HALF PAYMENT OPTION: = H

The Half Payment Option is where you pay the first half of your payment on or before November 30th of the tax year, and the second half of your taxes must be paid on or before June 30th of the following year. There will be no penalty or interest if payments are paid in this time frame. Should the second Half Payment by July 1 will cause a 12% penalty on the unpaid portion. Interest of 1% per month or portion of month, as per Section 31.031 of the Texas Property Tax Code.

QUARTER PAY OPTION: = Q

Sec. 31.031 states "if before the delinquency date an individual who is disabled or at least 65 years of age and is qualified for an exemption under Section 11.13 (c) pays at least one-fourth of a taxing unit's taxes imposed on property that the person owns and occupies as a residence homestead accompanied by notice to the taxing unit that the person will pay the remaining taxes in installments, the person may pay the remaining taxes without penalty and interest in three equal installments. The first installment must be paid on or before January 31, the second payment on or before March 31, the third payment on or before May 31, and the last quarter on or before July 31. If the individual fails to make a payment before the applicable date, the unpaid amount is delinquent and incurs a penalty of 12 percent penalty and interest."

DEFERRAL EXEMPTION: D

If the homeowner is 65 or older or disabled, the homeowner may defer or postpone paying any delinquent property taxes on his or her home for as long as the owner lives in it. To postpone tax payments, the owner must file a Tax Deferral Affidavit with the Appraisal District. A homeowner may suspend any lawsuit by filing an affidavit with the court. The deferral is for all delinquent property taxes of the taxing units that tax the home.

A tax deferral only postpones paying taxes. It doesn't cancel them. Interest is added at the rate of 8% a year. Once the owner no longer owns the home or lives in it, past taxes and interest become due. Any penalty and interest that was due on the tax bill for the home before the tax deferral will remain on the property and also become due when the tax deferral ends. After the tax deferral ends and the taxes remain unpaid, the taxing units may add attorney fees on the 91st day after the deferral and pursue tax collections.
